REASONS FOR ALLOWANCE

The following is an Examiner's Statement of Reasons for Allowance:

The prior arts of record teach a method and apparatus for internode switching to minimize network delays. The invention further comprises a switching stage including multiple switching nodes and an inter-node switch, each switching node is connected to the other switching nodes via a permanent virtual path, the permanent virtual paths connect the node controllers to one another through inter-node switch. Packet data from a first switching element is switched onto a second permanent virtual path connected to a second switching element. Landaveri et al., U.S. Patent No. 6,778,538 is one such example of prior art. The prior arts of record, however, fails to teach, singly or in combination, a processing engine that assigns an identifier to one or more of the particular flows and associates each data packet belonging to that flow with the identifier and is operable to identify characteristics of one or more of the particular flows and store these characteristics in a state database. The subject matter sought to be patented as recited in the claims in this application has practical applications in the field of data networking equipment.

Any comments consideration necessary by Applicants must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably accompany the Issue fee. Such submission should be clearly labeled "Comments on Statement of Reasons for Allowance".

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Nadeem Iqbal whose telephone number is (571)-272-3659. The examiner can normally be reached on M-F (8:00-5:30) First Friday Off.
